- 'Pink Lady' ('Cripps Pink') = #E0A53 / 188.10.83 / PROCESS RED (PC 994)

Teachers! Enter Your Student's Art!

Here's how one lucky K12 classroom can see its design at the next Farm Show!

- Give your students copies of this template; copies are found at the QR code below. Use this template to ensure the art fits on the mural board... and to ensure the art is legible!
- Have a contest for your students to design the most creative mural.
- Up to three student entries per school will be allowed to compete.
- To submit your classroom's designs, scan or photograph the designs and send them to paapplemural@gmail.com by **June 1**. (If you prefer to send color copies by the USPS or want an address to upload them instead of emailing them, drop us a note.) Please include your name and how to reach you during the summer break with your entries.
- Our panel of judges from the State Horticultural Association of Pennsylvania and Penn State Extension will select the winning design and will work with your class to see it realized at the show.
- The winning classroom will be invited to help build the apple mural and be interviewed by the press! We provide all the fruit and maintenance during the show.

Students! Tips for Drawing Your Mural

- Making a mural is a challenge! The board is equivalent to a 55×32-pixel image: giant, apple-sized pixels!
- Sketch ideas lightly on this template or on plain paper first. Or use a paint app or Minecraft blocks with a 55×32 canvas. Just remember the Erie notch in the upper left and watch the weird right side of the state.

- Once you're happy, trace the design by coloring in the matching circles using the four apple colors listed at the bottom. Each circle represents one apple.
- Mess it up? Don't like it? No worries! Download a fresh one from the QR code.
